SUMMARY

I'm experienced, impact-driven Software Engineer with 4+ of experience in building, design architect and planning software application and integration, with a knack for aethestic design approach, I'm eager to join a startup with a strong mission in building a product and service that will revolutionize the world. In my previous role, I slashed my downtime by 20% and ensured 85% on-time project completion, I have also identified and and dealt with significant process bottlenecks that boosted coding efficiency by 37% when resolved.
